

# Lía M. Valdés T.

*Nuevo Arraiján, Panamá West*

*64611996*

*liavalds@gmail.com*

*linkedin/in/liavaldes*

Computer Science junior student at the University of Panama, and a graduate of the Academy of Software Developers at Fundader, who seeks to be part of the technology and innovation field at Banistmo, as a programmer. Excellent group organization and communication skills. For me, innovating means being part of the future, and programming is the tool that allows me to give my contribution to the development of new technologies and contribute to the country's progress.
